JavaScript

COMPETENCIES

Self discipline, Understand and Analyze problem-solving , Detail Oriented, Interpersonal Communication and Motivation, Version Control and Team Planning

PROJECTS

Personalize TO-DO MVC

The To-Do MVC app is robust web application built using JDBC, Spring, Hibernate, and Java Classes. It seamlessly integrates JSP pages and controller configuration, while leveraging XML for smooth data management. With a visually appealing front-end design using Bootstrap and HTML, it offers a comprehensive and efficient solution for managing tasks and priorities.
